

R3 = 1.9Mohm for 5.2V
R3 = 1.1Mohm for 3.3V

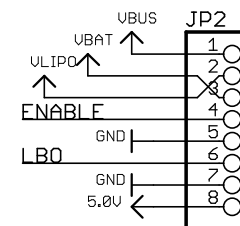

Both grounds must be connected on the PCB at only one point close to the GND pin.

Charge Rate = 1000V/PROG1
1.0K = 1000mA
2.0K = 500mA

No Thermistor: RT1 = 0, RT2 = 10K
10K NTC Thermistor: RT1 = TBD, RT2 = TBD
